*Isaac D. Roberts III (USNV)*

---

Executive Director of Better Communities Reimagined. I started my career enlisting in the United States Navy, joining their aviation department. After my active enlistment I severed in the Navy reserve while simultaneously pursuing my bachelor's degree in Workforce Education and Development from Southern Illinois University. I entered the world of finance in 1998 in Houston, Texas initially as a Loan Originator, I went on to become a founding partner of a mortgage brokerage firm. After the downturn in the real estate market, I pivoted to the marketing/advertising industry. I worked as an Account Executive for CBS inc. and after nearly eight years in the industry I decided to return to finance. I worked with USDA Rural Development as a Loan Specialist (Underwriter) retiring February 2023. Add a little bit of body text
